**E**very job is unique and treated as such. Your photo (s) will be evaluated based on the condition, the extent of the damage, the work required to undertake the job and will be individually quoted - you will know your cost before any work begins. You are under no obligation whatsoever to proceed. If it is felt that an acceptable restoration cannot be done, you will be informed accordingly. Please refer to the estimate guide below for a general idea of what's involved in the costing process keeping in mind you are being provided with personalized, hands on custom work and services. *Please note that while many different types of damage can be repaired, there is absolutely no way to fix an out of focus image.* When a project is completed a high resolution (600 dpi) print-ready file will be provided to you in either a Jpeg, TIFF or PDF format. All original materials will be returned to you intact and as received.
